*Note annualised amount

Notes and Footnotes:

- Amounts reported reflect a portion of each individual's overall remuneration package, according to time spent on the Guild Superannuation business, versus time on other company entities that form part of the Guild Group. Increase values reflect significant increase on time spent on the Guild Superannuation business.
 - Amounts are in gross dollars, rounded to the nearest dollar and can be taken to apply for the full year unless otherwise indicated.
- ¹ Fixed salary includes paid absences and salary sacrificed items. Minimum SGC superannuation payments are excluded.
- ² Annual cash bonus (STI) for financial year performance including superannuation, and paid October following end of financial year.
- ³ Long Term Incentive (LTI) granted, as a fixed cash amount for financial year performance, and paid out on completion of a further two years of employment with the organisation.
- ⁴ Long Term Incentive (LTI) paid as a fixed cash amount as 100% of amount granted subject to completion of a further two years of employment with the organisation e.g. LTI granted for FY18 performance is paid October 2020. In accordance with scheme rules, cash amounts paid out may be reduced (or payment delayed) only in exceptional circumstances to safeguard the company.
- ⁵ Voluntary superannuation contributions paid from fixed salaries (¹) which are over and above SGC minimum contribution.
- ⁶ Termination benefits paid on cessation of employment.
- ⁷ Long Term Incentive (LTI) granted for financial year performance in October following end of financial year, capped as a percentage of TEC i.e. base salary + superannuation + salary sacrificed items. Cash value is converted to the same number of LTI options, for payment in the future based on the changing value of Group Net Assets (GNA). Vesting date is upon completion of further two years of employment and may be exercised for up to a maximum of 8 years subject to remaining an employee with the organisation. GNA determines value of options and amount payable when exercised, calculated as [Latest GNA – Initial GNA]/Initial GNA.
